

Middle East Technical University (ODTU) Tennis Society

28.07.2023

Middle East Technical University (ODTU) tennis society is a team of volunteers who love tennis and want to help people develop an interest in it. Our building is located on the beautiful campus of Middle East Technical University where many people, students and academicians from around Turkey come together and share their love of tennis. Our tennis society offers individual courses at affordable prices for Middle East Society Members and outside the society with an inclusive approach. This provides a unique ambiance where both academicians and non-academicians can partake in friendly competition in tennis and socialize in-between games. We also offer courses for children which help them become active and socialize amongst themselves and with our volunteers.

Arianna Peri Aliprandi who has also been one of our members for the last 7 years, interned with us between July 17 and 28 2023, helping us in many avenues. Her primary responsibility was greeting members as they arrived and orienting new members by informing them of our society's activities and showing them around the facility. As the initial point of interaction, Ariana's greeting served as a very positive first impression for the visitors which helped them feel comfortable and as part of a friendly environment. Arianna was very good at keeping their names in her memory and addressing them accordingly, which ensured they felt like a part of our community. Another important responsibility she shouldered was spending time with more than twenty children at the society in between their courses, keeping their group busy and entertained. We were pleased with how well and sensitively she interacted with the kids.

We deeply value the efforts and contributions of such ambitious and responsible students like Arianna Peri Aliprandi and were happy to have her work with us for this period of time.
